

Carrier 30 Cart™

The new Carrier 30 Cart can store, charge, secure and transport more types of devices than ever before. It's a Chromebook Cart, Tablet Cart, iPad Cart... in fact, it's an 'everything cart' in one neat package.

- **5-slot Large Baskets by PC Locs.** Equipped with 6 Large Baskets to give users the flexibility to deploy Chromebook, Surface Pro, Tablet and iPad devices with ease. The Large Baskets are light, easy to grip, and can fit a wider range of devices.
- **Safe, efficient and a future proofed power management system for charging 30 devices at once.** The ECO Safe Charge™ can handle the power requirements of almost any device by staging the availability of power to each bank of devices.
- **External charging status display.** Quickly check if your devices are charging with the external display windows. ECO Safe Charge power management displays which bank of devices are charging as well as the charging mode that has been selected.
- **Soft closing, sliding hood** secures up to 30 devices, and the baskets that they are stored in!
- **Easy cable management system.** The Carrier 30 Cart features side channel cabling system which holds all the cables in place and keeps the power cords from catching on the baskets. Included Velcro ties allow you to organize cables into groups of five to coordinate with included baskets.
- **Recharge of Mass.** The Carrier 30 Cart can charge up to 30 at once.
- **Large storage area.** Chromebook, Surface Pro, Tablet or iPad devices can be accessed easier and by more users at once.
- **Are your devices too big for the Baskets?** The Carrier 30 Cart features a three level adjusting storage shelf. This allows users to insert the optional device storage racks into the storage area of the Cart (which replaces the Large Baskets). The storage racks are designed to accommodate larger devices.
- **Highly Secure.** Features a three-point locking system to keep your valuable devices safe. The lockable sliding lid secures your devices whilst they're not in use. Additionally, attach the heavy-duty anchor kit to secure the whole Cart down. The combination padlock which secures the sliding lid means there is no need to manage keys!
- **Modular syncing.** Option to purchase the handheld iQ Sync Charge Boxes for syncing functionality.
- **Lifetime warranty.** PC Locs products are built to last. Conditions apply.
- **Free shipping to almost anywhere in Australia.** Contact us for details and exclusions.

The Carrier 30 Cart ...It's a truly universal Cart that can store, charge, secure and transport up to 30 Chromebook, Surface Pro, Tablet, iPad devices or just about any device.

PC Locs... it just makes life easier.
